Reconciliation of Accounts Receivable

Simplifying your Financial Management at your fingertips.

The FinGate21 system, through the communication established with payment service companies such as Cielo, Getnet and others, receives the detailed information of the transactions carried out and reconciles them with its Accounts Receivable system.

The company has control of the payments made by credit card as well as the outstanding invoices, automatically, greatly increasing the transparency of the information and bringing reliability to your business.

Benefits

It allows global access to a greater number of individuals and companies:

Generates a greater velocity in the cash flow:

Provides an electronic wallet on the cellphone:

Controls all of your payments:

Shows illustrative charts depicting your expenses, organized by categories and periods:

Stores all of your original payments documents in the cloud storage:

Store all payment receipts sent by the bank of your choice in the cloud storage:

Keep an on-line copy of all your purchases with credit card:

Controls your securities collection with real-time communication with debtors:

Record of the payer's geographical location.
